

WhatsApp Nutrition Tracking for MyBento's Wellness Module

Add a calorie and macro tracker to your employee wellness offering. No app downloads, no development work, no admin. Employees text what they ate on WhatsApp — that's it.

How It Works

No setup, no onboarding, no training. Works on any phone. Employees use it like texting a friend.

What MyBento's Clients Get

Employees

- Text or photo → instant calorie tracking
- Morning recap + evening summary
- Weight tracking & streaks
- 500+ SA foods built in (Nando's, Woolies, KFC, Steers, etc.)
- Ask nutrition questions anytime

HR / Wellness Manager

- Monthly report: active users, participation rate
- Simple invoice based on usage
- Zero admin or IT involvement
- Supports wellness programme KPIs

What MyBento Gets

A plug-and-play wellness feature you can offer to every client tomorrow. No development, no integration, no maintenance.

Pricing

ITEM	PRICE
Per active employee, per month	R7.50
Setup per client	Free
Monthly usage report	Included
Support & updates	Included

Active user = sent at least 1 message that month.

Monthly Report

On the 1st of each month, MyBento receives a report per client:

 FitSorted Monthly Report – March 2026

Company: Acme Corp
Employees joined: 47
Active this month: 32
Total food logs: 812
Avg logs per user: 25.4

Invoice: 32 × R7.50 = R240.00

Free Pilot — No Risk

Pick one client. We set it up in 48 hours. Two weeks free. If it works, we scale. If not, nothing lost.
